Von Taryn Elliott, Cari Quinn : Manaconda: a Rockstar Romantic Comedy (Hammered Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Manaconda: a Rockstar Romantic Comedy (Hammered Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A man

much more than medias Manaconda Von Jean Smith If you're looking for tongue-in-cheek humor or full out laughing out loud situations, you're going to love the predicaments Jordan and Kennedy find themselves in. Between a rockstar who is all about his art being the spotlight of media all because of his package and the PR rep that finds that no matter how much she'd like to keep her clients at arms length it just doesn't work with this one, you'll find these two quite engaging. The chemistry is hot and steamy. There is plenty of drama. But be forewarned, just when you think you're headed for HEA you'll get dumped on your butt with a cliffhanger. That's the frustrating thing about ebooks at times, you're at the end before you know it, only to discover it's only episode one. So, if you don't mind serial romances this one is quite entertaining and promises to deliver.*****Reviewed for Xtreme-Delusions*****0 von 0 Kunden fanden die folgende Rezension hilfreich. Witty, funny, heartwarming Von Hoener, Birgit Hunter Jordan, lead singer of a rock band, suffers (sort of) from having been labelled "Manaconda" due to a certain part of his anatomy. His record label decides to exploit this, and in comes his new PR Person, Kennedy McManus. Sparks fly between the two main protagonists, who equally are attracted and exasperated by each other. Each chapter is told alternatively by Hunter and Kennedy, which gives the reader both viewpoints during the story, and is one of the reasons this book kept me glued to the pages. Add to that witty dialogues, hilarious situations, a good plot and brilliant storytelling, and you cannot go wrong!

Kurzbeschreibung My name is Hunter Jordan, lead singer of Hammered and no, I didn't name my c*ck Manaconda. Rolling Stone did. On the front cover of their damn magazine. I still haven't lived it down. And now our record label wants to maximize the frenzy. So, I have a brand new PR person Kennedy McManus. And she's making me insane. I don't know whether to ignore her, yell at her, or push her up against the wall and kiss her smart mouth shut. I ended up kissing her. Come on, I mentioned how exasperating she was, right? That's when it blew up in both our faces. Now, the tabloids think she's my girlfriend. My record label would rather have me remain the single manwhore of the ages. Kennedy thinks I'm the manwhore anyway. She wants me for a quick fling and nothing more. I just want Kennedy. Man, I'm so screwed. *A STANDALONE NOVEL* Originally ended in a cliffhanger, but now includes Manaconda: The Second Coming to make a standalone story. When she's not writing, she's screaming at men's college basketball games on TV, playing her music too loud or causing trouble. Sometimes simultaneously. USA Today bestselling author Taryn Elliott is obsessed with rock stars, men, and her unending playlists maximizing these things seemed like a very good idea. When she's not writing, she's losing hours to hot men on TV, and/or a graphic design project. Multitasking is her middle name. They decided to combine forces and found that hey...this writing deal is even more awesome when you collaborate with your best friend. And so the Oblivion World was born.
