Absolutely perfect romance!Von JohannaNyrae Dawn's Games series just keeps getting better and better. After Charade and Facade, I've now read her latest novel Masquerade. And it was even better than the first two. I hope she keeps on writing because by now, I'll definitely read anything this woman writes. Yes, she's that good.I knew Maddox

from Facade already but couldn't really get a grip on him as a character. Now, that changed completely. He was one of those battered souls that can't forgive himself for what he feels he's done to the ones he loves. He's closed off from everything, his sister, his life, any emotions other than anger. But there's one thing that he would really like to do: tattooing. So he tries for an apprenticeship at the newest tattoo parlor, Masquerade. The shop is owned by Bee who's new to town. Bee was another highly fascinating character. She's not soft, timid or anything else that many female MCs are. But rather, this heroine knows what she wants and simply takes it. I loved the brutal honesty that both, Maddox and Bee, have because I'm pretty much like that too. Though I've learned to tame it, those two just let it out and don't care what others might think of them. Bee doesn't think that she's able to love because she's kind of confused about what love is due to her past (which is really a unique case, I have to say). Maddox is so extremely scarred that it sort of hurt just pretending to take up his point of view. It was so incredibly hard for both of them to let go and acknowledge what they actually had and that they deserved it. The intimate scenes between them are just like those two are, direct and honest, without lots of romantic pretense. I loved that they were different from the other books because that shows that the author doesn't just replay her usual repertoire of words and phrases but lets us see the heart of her characters. I was happy to also meet Adrian Laney and Colt Cheyenne again because I loved their books a lot. It was necessary for Maddox to find a way to treat his younger sister without all this guilt eating him up for their past. It wouldn't fit his characters for the six of them to suddenly become closest friends but I think, eventually, he'll find his way, even if it is only watching happily from the side since he doesn't like to be in the middle of everything. I hope there'll be more books in the Games series though I haven't heard of any yet. Meanwhile, I'll just check out Dawn's other books because there are a lot more. I'm especially curious for her m/m romance Rush to come out this year. If you're into romance (of whichever kind) you should definitely check out this author!
