Bcher, dafr gibt es mehr Science Fiction, Plot und Humor, ohne dass die romantische Ebene beeintrchtigt wird. Kann ich sehr empfehlen, besonders den Firefly-Fans. Die Autorin schreibt auch unter dem Namen Lindsay Buroker. Durch ihre Emperor's Edge Bcher bin ich auf ihr anderes Pseudonym gestoen. Tolle Autorin, sehr einfallsreich. 4 von 4 Kunden fanden die folgende Rezension hilfreich. Gutes Sternenabenteuer! Von guddi Der Scifi-Roman um die Truppe von Captain Mandrake hat viel Tempo, interessante Charaktere und jede Menge Laser-Feuerkraft. Mir hat es so gut gefallen, dass ich die zwei folgenden Bcher auch noch heruntergeladen habe. Und die sind auch sehr spannend. Weitere Mandrake Romane drfen gerne folgen. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Space mercenaries and adventurers Von Book wyrm This book tells the action packed romance story of an adventurous entrepreneur and a stoic space mercenary captain. A great read with lots of action and excitement, and off course romance. Is you like romance in your scifi you should definitely try this book.

Kurzbeschreibung Skulking around in the ruins on a planet swarming with treasure hunters, slavers, and bounty hunters isnt good for ones health. But Ankari Markovich needs a few archaeological samples for her latest business venture, a venture that might prove lucrative enough to move her family off the impoverished planet where she grew up. Unfortunately, she has no sooner collected her samples than shes captured by a band of brawny mercenaries. The captain might be handsome, but hes intent on turning her over to some finance lord who has, for reasons unknown, put a bounty on her head, a ridiculously large one at that. If she cant figure out a way to escape before shes delivered to the lords home world, she could be forced into a life of indentured servitude or worse. Captain Viktor Mandrake doesnt usually take on piddling bounty hunting gigs, but when his intelligence officer informs him of a criminal on a nearby planet, he decides it wouldnt hurt to take a shuttle down to collect the woman. But Ankari Markovich is trouble from the start, nearly eluding his elite forces, then fighting and tricking his people left and right. He finds himself admiring her spirit, but according to her warrant, shes a criminal. The safest thing is to keep her in the brig and ignore her until she can be handed off to the man who wants her. But the situation grows more complicated when other bounty hunters show up, wanting to claim Ankari for themselves. Thanks to this woman, Viktors ship is in danger, his crew members are going missing, and hes fighting enemies he never asked for in a jungle in the middle of a hurricane. Hes either going to strangle Ankari or fall in love. Either scenario could get him killed. Mercenary Instinct is a full-length, stand-alone novel of 90,000 words. It is part of the Mandrake Company series of science fiction romance stories and is recommended for readers who enjoy space-based adventure (such as Firefly) and steamy love stories (in the style of Linnea Sinclair).
