to read and therefore I started reading without any expectations or assumptions and was completely open to the book and the story. While it is a book in a series, it can be read as a stand-alone. As already mentioned, this title has been my first book in this series and I could easily follow the story without missing any knowledge from any of the other books. The story is captivating and is centered on a modern heroine who crash-lands on an unknown planet. The world is much more primitive regarding technology and also some knowledge, but they aren't in Stone Age either and follow their beliefs. The social system is structured and they have a strong leader who happens to be the hero of the story. The story starts with both negotiating to help out each other and transforms over time in a well-written display of another world. This world has very much details and it is interesting to learn about this planet, the history and culture. Both heroes have to overcome obstacles, differences and challenges and it stays fascinating until the end. You have romance, a lot of twists, background knowledge, in total everything that makes a good book. For me this book has been a very pleasant surprise and I can recommend it when you like a story around. Don't get me wrong, the author writes good books, but this is typically not my genre. In the future, I will definitely try out more of this series.

This story features; Aurina, a curvy, audacious, beautiful scout for the Phoenix Convoy; Kavon, a strapping, traffic-stopping gorgeous, bossy, Markarian Warlord. What you'll find in this story; a cast of remarkably impressive and engaging characters, exhilarating story-line, dynamic vivid scene descriptions, phenomenal banter, gripping suspense, life-threatening incidents, gut-wrenching moments, horrific danger, action, spine-tingling heart-throbbing sensual romance, and a heart-melting conclusion leaving you wanting more. Aurina loves her job as scout for the convoy, but feels in her heart something is missing from her life. When on a mission searching for an appropriate rest stop for the Convoy her ship is damaged by a meteor shower and radiation; she crash-lands on Kavon's planet. Aurina is claimed by the Warlord Kavon for her own protection and is catapulted into a world of intrigue and danger.

FANTASTIC well-written creative read by a truly gifted author. The characters spring to life with the suspense and magnificent scene descriptions. Aurina has her hands filled with the pompous Warlord who can't believe she disobeys his orders at every turn. The chemistry between Aurina and Kavon is convincing and unwavering; their romance sizzles with heated passion. This was a slumber-stealer for me, and I relished the characters and story from start to finish. If you treasure fantasy romance with action and passion, this is a terrific book for your library. {I received a copy of this book for a completely honest review}. In the world of fantasy romance the possibilities are endless and always fascinating. Without reservations I recommend this book.

Von mismorelli Eigentlich lese ich eher Bücher im heute und gestern, als in der Zukunft, aber dieses Buch hat mir sehr gut gefallen. Obwohl Kavon auf einem Planeten lebt, der etwas unserem Mittelalter entspricht, lässt er sich nicht die Butter vom Brot nehmen von dieser taffen Zukunfts-hightech Maus. Ich musste sehr oft schmunzeln, das gefällt mir bei einem Buch :-). Auch wenn manches nicht ganz stimmig war und ich auf einige Szenen (Kampf mit dem Ungeheuer) auch gut hätte verzichten können, fand ich das Buch dennoch klasse. Ich empfehle es all denen weiter, die sexy alpha Helden lieben mit starkem Hang zum Besitzen und ebenso starke Frauen die beim richtigen Kerl aber ganz weiche "Frauchen" werden können. Auch ein Epilog hätte mir gefallen. Dennoch hatte ich viel Freude und Spaß am Buch.

Kurzbeschreibung When an independent deep-space scout crash-lands on an unknown alien world, the last thing she expects is to find herself claimed by a barbarian warrior. Aurina Phoenix spends most of her time zooming through uncharted space and gathering intel for her family's deep-space convoy, but her life takes an unexpected detour when a meteor shower brings down her ship. She finds herself on a barren, low-tech planet inhabited by dangerous beasts...and lands in the arms of a brawny barbarian warlord. Markarian warrior Kavon Mal Dor is known for his skill in battle. He lives to protect his clan...and to avenge the murder of his father. Every move he makes is part of his grand plan for revenge, including finding a legendary sword and marrying a warlord's daughter. But when a beautiful skyflyer crashes into his world, she is the one thing he never counted on. Fighting their incendiary attraction, Aurina and Kavon make a deal: she'll help him find the sword and in return, he'll give her the emergency beacon she needs to get home. But as the search for the sword plunges them into a dangerous adventure they find themselves consumed by a powerful passion and questioning everything they've ever wanted.

Note to readers: This sci-fi romance contains a lot of action (think rival warlords, dangerous beasts and lost mines), cool offshoots (sexy alien warriors and overprotective brothers) and a steamy romance (lots of sexy times between two strong-willed people). This is treasure hunting sci-fi style. So if you like it fast, and fun, and sexy, this is for you! Includes preview of the Phoenix Adventures book, **Among Galactic Ruins**. **Q A with the Author** **Q** - How would you describe the Phoenix Adventures series? **A** - Treasure hunters in space! A few readers have said it's like Indiana Jones set far into the future. All the books in the series are fast, fun thrill-ride treasure hunts for old Earth artifacts. There is lots of action, adventure, space opera, and of course, romance. I'm thrilled the books in the series have won so many awards from a SFR Galaxy Award for Most Fun New Series to a Prism Award for Best Futuristic Romance (On a Rogue Planet) to the Romance Writers of Australia

Romantic Novella of the Year (Beneath A Trojan Moon).Q - Why did you want to write the series?A - I love action, adventure and romance. And I love science fiction romance and all the endless possibilities. Combine all that with a fascination with ancient artifacts and the Phoenix Adventures were born. I really wanted to capture what the expeditions of old must have felt like - trekking through jungles or desert sands and stumbling across crumbling ruins. Since all the good stuff has been found nowadays, I looked to the future and jetted off into space.Q - What order should I read the books in?A - All the Phoenix Adventures books are stand-alone adventures - many readers have entered the series with later books in the series. However, characters from the early stories do appear in later books, so I think it adds something to the reading experience to read them in order. Here's the order I suggest:- Among Galactic Ruins (prequel)- At Star's End- In the Devil's Nebula- On a Rogue Planet- Beneath a Trojan Moon (novella)- Beyond Galaxy's Edge- On a Cyborg Planet (novella)- Return to Dark Earth- On a Barbarian World- Through Uncharted Space- Beyond Distant Stars (coming soon)About Anna: I'm passionate about all things action romance. I love stories that combine the thrill of falling in love with the excitement of action, danger and adventure. I write about people overcoming unbeatable odds and achieving seemingly impossible goals. I like to believe it's possible for all of us to do the same.The Phoenix Adventures Science Fiction Romance Series:- Science Fiction Romance- Action Adventure Romance- Space Opera- Futuristic Romance- Cyborg Romance- Fantasy Romance- Military Romance
