Von Heather Burch : One Lavender Ribbon before purchasing it in order to gage whether or not it would be worth my time, and all praised One Lavender Ribbon:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Romance to take on holidayVon rabbit23Initially I was interested in the storyline and the characters but once the romance started to intensify, I found the descriptions childish and trashy. At times I even felt like not bothering to continue with the story but here and there a few threads managed to maintain my interest to push me on to the end.One

other factor which irritated me was the main character's unrealistic situation: having just escaped from a bad marriage, she moves away to buy herself a house and do it up. She has no obvious source of income and the reader is given no information about her plans to look for a job in the area. If all you want is a quick read whilst at the beach or beside the pool, you might want to buy this but I personally would not recommend it. All in all, disappointing. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The perfect comfort read Von Jeanne Adamek One Lavender Ribbon was a delight to read. It had that magical quality of pulling the reader in and not letting go, even when the book was finished. I loved ALL the characters which surprised me. But strangely the character that moved me the most was Pops, the grandfather. He brought back several wonderful memories that I had of my grandfather. They both had that special quietly kind way of thinking and acting that I never encountered in this way before. The writing in this novel was beautiful. I found myself savoring passages and going back to read them again. In a world that is complex and at times terrifying I found reading this story soothing leaving me hopeful. I will be reading more from Heather Burch. I recommend this book highly. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sugary Von Jacky from Germany There are no lavender ribbons in this book. It is a fun read, if you ignore the way the protagonist meddles in everyone's lives, although it seems to be to the good. Too many strands for such a light book. Wouldn't go out of my way to read it.

Kurzbeschreibung Can a stack of long-hidden love letters from a WWII war hero inspire a heartbroken woman to love again? Reeling from a bitter divorce, Adrienne Carter abandons Chicago and retreats to the sun, sand, and beauty of Southern Florida, throwing herself into the restoration of a dilapidated old Victorian beach house. Early into the renovations, she discovers a tin box hidden away in the attic that reveals the emotional letters from a WWII paratrooper to a young woman who lived in the house more than a half-century earlier. The old letters are incredibly poetic and romantic, transcend time, and they arouse in Adrienne a curiosity that leads her to track down the writer of the letters. William Pops Bryant is now an old man living in a nearby town with his handsome but overprotective grandson, Will. As Adrienne begins to unravel the secrets of the letters (and the Bryants), she finds herself not yet willing to give up entirely on love. Her books have garnered praise from USA Today, Romantic Times, and Booklist magazine. When not working on her latest novel, she can be found hiking in the Ozark Mountains or planning a trip to the beach with her husband, John, who is her hero in every way.
