A love like this is worth fighting for. We all remember Mia Jensen from Kaleidoscope Hearts... Mia was Estelle's best friend,

and Jensen was in the 'guy group' - best friends with Estelle's brother Victor and Estelle's future husband Oliver. Mia and Jensen have always had this special bond. She was everything for him when they were younger. And then, when he left to go to college in NY - they decided to take a little break from each other. And like guys are - he was lonely and jealous, of whatever Mia was doing in California - and he had an affair with a girl from his class. And of course that girl ended up pregnant. And being the good guy that he is, he felt he needed to get married to the girl. (There might have been some pressure from her dad too.) All that left Mia totally heartbroken. And Jensen too - because not only was Mia the love of his life - she was also his best friend - and he needed her so much back then, but she just left and never looked back. Now - five years later, both Mia and Jensen are in New York. Mia took a temporary photographer job with Newsweek - the same magazine Jensen writes for as a freelancer. And of course he will be interviewing the couples she's taking pictures of. How is she supposed to stay strong, when she has to see him all the time. Jensen never got over Mia - he wants her back. He's divorced now and Mia has always been his big love - the girl that got away. He needs to make things right with her. But she doesn't yet understand how hurt HE was back then. They have a lot to talk about. If only Mia wouldn't always run away once he starts flirting. They have the next two months to try again. And Jensen will do everything in his power to get back the only girl he ever loved. What will happen to Mia Jensen? Will there be a HEA? _____

Real love stories never end. I loved Estelle Oliver's story - but I think Mia Jensen's love story was even better. After I finished the TORN HEARTS novella - I HAD TO know how their story would end. It was all so sad and ugh - I just wanted them to get back together. There was so much hurt and heartbreak between the two of them - and now - five years later..... they need to get it right, because we so want them to get their happy ever after with each other. And it's so adorable and moving to watch them get there. How Mia tries to stay strong, and not give in to her still huge feelings for this ridiculously hot poet. And Jensen - he loves her so much - always has - always will. It's just so heartbreaking to watch him live his life without Mia. I loved how Claire added those little articles Jensen writes for the Times. He bares his heart in those articles. We can clearly read how much he still loves that girl from California that used to be his best friend. I loved every single word of this book. I laughed - I cried - but most of all, I hoped that they would just get over everything and talk it all out and fast-forward to their Happy End. If this book would've been a movie - I would've been on the edge of my seat, with my hands half-covering my eyes, waiting and hoping for Mia Jensen to finally live happily ever after. Paper Hearts was an extremely moving and adorably romantic second-chance Love Story. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A great read Von Jen R Paper Hearts is the story of Mia and Jensen. It is a second chance romance and I really enjoyed it. This was the second book I read this week where the main character had qualities I normally hate, but the story was written in such a way that I really liked them. I always love when that happens. If you have read Torn Hearts, the free prequel to this story, then you know Mia and Jensen were in love. They both thought the other was the one for them, but some bumps in the road tore them apart. Her mom said something in that story about how she was not with Jensen because she didn't like the idea of him being away at school with other women and Mia not being there. That Mia didn't like not having control of the situation. I see that. I see that in her. She just seems to be afraid of everything so much so that she is missing out. If she can control everything then everything will be fine, but if not... When she found out Jensen got some other girl pregnant her thoughts were immediately that she cannot be with him anymore, that should have been her baby even though she says she doesn't want kids, it just completely destroys her. This story starts off with Mia in New York, where Jensen lives, working for the same place Jensen often works. So of course they get thrown together on an assignment. And what does Mia try to do every time? Run. That is what she always does. If things are uncomfortable, if she has to deal with emotions or anything, she runs. She tries to just stay in her safe, controlled little bubble. The problem is that doesn't work. She still loves Jensen even though she won't admit it. And his daughter? Well she doesn't even want to think about her. She is Jensen's with some other woman! Mia is ridiculous, but she is kind of pitiful at the same time. So much so that it is hard to be annoyed with her. I was reading and just thought normally this would be so irritating, but she is so sad I can't be annoyed with her. Through it all Jensen keeps trying to win Mia over. He has never moved on from her. She has always been the one for him, and now that she is in New York for a few months he thinks this is his chance. He writes a column for the newspaper and she is in it a lot (even if she doesn't realize it). It is a long and bumpy road to get Mia to realize that a) she can take a chance with Jensen again and b) what her dreams were might not be her dreams anymore. That maybe she needs to make big changes to get what she really wants. She just seems to put her head in the sand and not know what is actually happening, but I really enjoyed this story. She is so afraid, but she learns to not be so much by the end. It was painful at times, heartbreaking for poor Jensen who kept throwing himself out there, but you do get the happily ever after eventually. Really a great read. Nach langer Zeit hat mich ein Buch mal wieder so gefesselt, dass ich es gleich am Ende nochmal gelesen habe. Als "Fortsetzung" der Vorgeschichte Torn Hearts und drittes Buch mit Kaleidoscope Hearts als Anfang fand ich die Story am besten. Es geht um Mia und Jensen, die schon zu Schulzeiten ein Paar waren, es aber durch einen Fehler von Jensen zum Bruch kam. 5 Jahre später treffen sich ihre Wege wieder, und Jensen tut alles dafür, Mia zurück zu gewinnen. Tausendmal schon irgendwo gelesen - aber nie so schnell wie hier!!! Der innere Teenie in mir hat mitgelacht, mitgeweint, mitgelitten und

mitgeschmachtet. Man muss Kaleidoscope Hearts nicht unbedingt lesen, um Paper Hearts zu verstehen, aber gemeinsam ergeben die Bücher ein Gesamtwerk. Ich würde alleine dafür schon mehr als 5 Sterne vergeben, absolute Lese-Empfehlung!!!

Kurzbeschreibung Jensen Reynolds made a stupid, terrible, mistake years ago when while on a break, he slept with another woman and got her pregnant. He tried to make up for it by marrying her, which meant saying goodbye to the love of his life forever. Mia is done with men. They're lying, cheating, scumbags and she doesn't have time for any of them. That is, until she finds herself in a temporary position, taking photos for the same company that Jensen freelances for. This is a story about redemption, forgiveness, and how far one will go for a second chance at a love that just won't fade away.
