Von Amanda Quick : Reckless before purchasing it in order to gage whether or not it would be worth my time, and all praised Reckless:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Another winner from Amanda Quick!Von Mandy_Reckless_ is a captivating tale of an impetuous heroine and a hero who

appears cold at times but is really a romantic at heart. Ms. Quick always delivers a unique premise and a wonderful break from the mainstream romance. *Reckless* is no exception. She wields a tale full of romance, mystery and danger while keeping a working balance between all the elements. The result is a book that will keep you on the edge of your seat and up until the wee hours of the morning. I love the way she always seems to tie her characters together with some sort of shared history. It gives a feeling of destiny to the books. Ms. Quick's characters are always well developed and three dimensional. The main characters in this book are some of the best! Phoebe is very admirable. Right away you like her spunk and you can identify with her love of romance. You'll also laugh uproariously at her fashion sense. Gabriel is . . . hard to explain. One moment he endears himself to your heart and the next instant you'd like to throttle him. They are not only well suited to each other but also play well off one another. The interaction is entertaining and endearing. Also, in the form of secondary characters, you have Phoebe's charming family. A group of oddly hilarious socialites who try to keep the adventurer of the family, Phoebe, under control. They don't realize that they all possess a good portion of Phoebe's impetuosity. All in all it was an excellent read. 1 von 1 Kunden fanden die folgende Rezension hilfreich. This Book Is Worth Ten Stars Von Kelly I absolutely loved this book. *Reckless* is the story of two people who were meant for each other and are lucky enough to find their soul mate. Phoebe is spunky and defies the rules. Wylde is the perfect anchor for her, but is the man to take her on her grandest adventure. The characters were fabulously three dimensional and the plot was unique and exciting. The mystery was breathtaking and the side plots were detailed enough to hold your attention but weren't so complicated that it was hard to keep up with. All in all, *Reckless* is my favorite book so far by Amanda Quick and I suggest this book to anyone with a pulse. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Definitely Amanda Quick, but not one of her best Von Ein Kunde I though this book was good. I finishing reading it last it and I couldn't put it down. I love the wit, innocence, and charm the heroine display. The hero of the story was very appealing in that he is caring, honest, and, intelligent. When I read this book I saw Amanda Quick style in it that is the main reason I though it was cute, but compared to her other books, this one was o.k.

Kurzbeschreibung *Reckless*--Phoebe Layton had always imagined Gabriel Banner a brave and valiant knight, which was why she went to him when she was in desperate need of help. but when she lures her shining knight to a lonely midnight rendezvous, Phoebe finds herself sparring with a dangerously desirable man who is nothing like the hero of her dreams. She fears she's made a dreadful mistake when Gabriel sweeps her into his arms and passionately embraces her. Yet it's a kiss that seals her fate. Now Gabriel must possess her -- even if he has to slay a dragon to do it! *A New York Times Bestseller From the Paperback edition. From Publishers Weekly Bestselling author Quick's (*Rendezvous*) latest lovers are a pair of bibliophiles whose engaging qualities should help her many devoted fans overlook this work's fatal flaw: it is an unconvincing attempt to draw a parallel between a Regency romance heroine and a medieval hero on a quest. Lady Phoebe Layton's "quest" is to track down the person who killed her suitor, Neil Baxter, and to "bring the villain to justice." Neil was making his fortune in the South Seas, where he reportedly was killed by a pirate who stole an old and valuable book she gave him; rumor says the book is back in England. Ignoring the fact that real questers don't delegate, Phoebe persuades fellow book collector Gabriel Banner, Earl of Wylde, to find the rare tome and the murderer. Phoebe's growing attachment to Gabriel prompts him to consider using her to seek revenge on her father, who, eight years earlier, ruined Gabriel and drove him out of England--to the South Seas. Quick expends little effort on this revenge scheme, which is in no danger of coming to fruition; as a result this fantasy castle seems built on a foundation of sand.
